OBJECTIVE

Full Stack Developer with 1+ year of experience, seeking to contribute technical skills and creativity to build scalable web applications and enhance user experiences.

EDUCATION

Masters in Information Technology, Mumbai University Expected 2026
Relevant Coursework: Linux.

Bachelors in Information Technology, Mumbai University 2021 - 2024

EXPERIENCE

Software Developer Jun 2024 - Present
Digitrix Agency Vasai

- Achieved 50% growth for frontend using Bootstrap, Tailwind CSS, Material UI, and Next.js skills.
- Achieved 30% growth for the back-end using CodeIgniter skills.
- Enhanced and maintained the **billgenerator.online** which led to 50% of improvement in Teamwork and Collaboration
- Developed **Create Receipt** platform, gaining hands-on experience with new technologies including Next.js, Material UI, and MongoDB, resulting in a 70% growth in technical proficiency.

PROJECTS

billgenerator.online *CodeIgniter, Bootstrap, jQuery, MySQL*

- Worked on a dynamic web application enabling users to generate customized bills and receipts with real-time live preview functionality.
- Created and integrated multiple new bill/receipt templates, implementing complete front-end, back-end, and database to support each template.
- Served over 15,000+ users who generated receipts through the platform, including 500+ paid subscribers

createreceipt *Next.js, Material UI, Tailwind CSS, MongoDB*

- Built a modern, responsive receipt generation platform with live preview and inline editing of receipt details.
- Designed reusable UI components in Material UI to ensure a consistent, scalable front-end design.
- Implemented multilingual support and a subscription-based model, enabling users to purchase plans and generate receipts seamlessly.

SKILLS

Frontend	BootStrap, Material UI, Tailwind CSS, Next.js
Backend	Django, CodeIgniter
Database	MySQL, MongoDB
Tools	Git, Github, Vercel, ChatGPT
Soft Skills	Problem-Solving, Communication, Teamwork and Collaboration
